Pulajanes Surprise Our Men  
and Give Them Severe  
Hand-to-Hand Fight.

MANILA Aug 10—First Lieutenant John F James and two privates of the Eighth Infantry with Contract Surgeon Calvin Snyder and Internal Revenue Collector Williams of Illinois, were killed yesterday afternoon in a hand to hand fight with a force of Pulajanes at Julita Island of Leyte.

The detachment which consisted of ten men was greatly outnumbered but made a gallant fight.

The Pulajanes captured three pistols four Krag-Jorgensen rifles, and 300 rounds of ammunition.

WASHINGTON Aug 10—Julita where Lieutenant James and others were killed by Pulajanes is a barrio, or ward, of the city of Burauen which has been the scene of three serious conflicts between the regulars, the constabulary and the Pulajanes within a few weeks.

Contract Surgeon Calvin Snyder was born in Baltimore Md., on July 15, 1878 and entered the military service on August 15, 1900. He had been on duty in the Philippines since December 3, 1900. Surgeon Snyder graduated from the University of Maryland Medical School in 1898.

First Lieutenant John F James was born in Virginia on May 3, 1878, and entered the army from that State. He was commissioned second lieutenant in the Eighth Infantry on April 10, 1899 and was made a first lieutenant on February 2, 1901.

San Francisco Policy-Holders Levy on Welch's  
Eastern Holdings.

NEW YORK Aug 10—The most important action from the standpoint of the fire insurance companies that has been taken since the recent San Francisco disaster was that of yesterday when attachments were levied on property of the Trans-Atlantic Fire Insurance Company of Hamburg held by the trustees in this city as well as in the possession of the state superintendent of insurance. This action taken by attorneys retained by the San Francisco policy-holders, was due to the refusal of the company to pay claims on fire losses at San Francisco on the ground that the destruction by fire was an act of Providence excepted in its term of policy.

As most of the trust funds of the company are in New York state the policy-holders decided to bring action

FAY TEMPLETON

PITTSBURG, Aug 10—Fay Templeton, who is now Mrs. William J. Patterson, arrived at her Pennsylvania home last night. Mr. and Mrs. Patterson drove into Springdale, a suburb of this city early in the evening in a swell trap, coming over the country from New Kensington. The Patterson residence which has been closed since the death of the first Mrs. Patterson had been in the hands of the caretakers and renovators for several days and this excited suspicion. All attempts, however, to ascertain the cause of the apparent unusual activity were met with rebuffs.

Last night when the bride and groom arrived the villagers were prepared

and a veritable charivari greeted them.

"Keep right on marroning and be quick about it, or I'll turn the dogs on you."

This was the salutation that greeted the village drum corps that assembled before the residence.

Despite the warning, the musicians continued on their march, circling the house and returning to the entrance gates, where once clear of the private grounds of the millionaire, it played several tunes amid cheers for "W J." It had been intended that the leader of the drum corps should make a little speech but just as the music stopped for the purpose, a dark figure rose from the rear of the porch, saluted the crowd with the admonition quoted and "Jack" Patterson, a brother of the bridegroom, appeared and upon his solicitation the band disbanded.

Although the Patterson's distinctly declined to be "at home" to the strangers other houses in the vicinity were lighted up and the residents were out on the porches and applauded the players. Not to be entirely balked in its purposes, the drum corps marched about the town playing lustily and ended up at the railroad station where an impromptu concert was given.

William J. Patterson refused to be interviewed last evening.

LONG LITIGATION LIKELY.  
The refusal of this fire insurance company to pay claims caused considerable comment among fire insurance officials yesterday. It is said that other companies will refuse to pay on similar cases in the future.

MOTHER AND CHILD  
ARE BOTH DEAD

ALAMEDA, AUG. 10—MRS. HELEN HERSEY, THE WOMAN WHO MURDERED HER TWO CHILDREN AND TOOK HER OWN LIFE BY THE GAS ROUTE, DIED AT NOON TODAY WITHOUT EVER REGAINING CONSCIOUSNESS. HER DEATH FOLLOWED THAT OF HER SIX-YEAR-OLD SON BY SIX HOURS. THE THREE VICTIMS OF THE POISONOUS GAS ARE MRS. HELEN HERSEY AGED 30 YEARS; BERT HER SON, AGED 6, AND KELLS THE THREE-YEAR-OLD BABY

ALAMEDA Aug 10—After the death of her children yesterday, Mrs. Helen Hersey, the woman who murdered them, was found unconscious in her room. They lay in bed all day, never realizing that the gas, which was filling their room, would be the agent of their death. In their childlike love they nestled close to their mother and there they were found their lives slowly ebbing away, when the father returned home on Wednesday night.

#### WOMAN WILL DIE.

The end of Mrs. Hersey is but a matter of time. It may be a week, it may be an hour from now but there is no chance to save the frail form of the little woman who murdered her children and made such a desperate attempt to take her own life.

Her work has not failed, and her two baby sons now lie lifeless at the home. The two little babes were the first to succumb and the end for the mother is but a few hours away. The life of the children lingered in their bodies hour after hour and all that medical science could do to bring them back to this world has proved of no avail.

#### THE SACRIFICE.

The lives of the little tots have proved a sacrifice made by a mother who could not leave this world without

BULLET FIRED  
IN HIS HEAD

Body of Charles H. Bishop  
Found Lying in Street  
of East Oakland.

Charles H. Bishop, a life member of the Benevolent Order of Elks, sent a bullet crashing through his brain some time last night at the corner of East Twenty-eighth street and Twenty-second avenue. It is believed that sickness and despondency were the cause of the man's rash act.

#### WAS A HORSEMAN.

Bishop was a horseman, and it is believed that his ill success at the game of racing had much to do with his decision to end his life.

#### FROM SEATTLE.

The dead man arrived from Seattle but a short time ago with his wife and five children. They took up their residence at 2418 Durant street, Berkeley. In another place in the notebook is a memorandum, dated May 23, 1906, send to San Francisco insurance \$120.25. C. H. B.

There was no money found on his body.

It is believed that he had throat trouble as a bottle of Listerine was found in one of his pockets. The drug was obtained at Bowman's drug store. A full box of cartridges was also found in his pocket. Two Sixteenth street station baggage checks were also among his effects. In a notebook were found the following names and addresses: C. R. Bishop, El Granada, Berkeley; Cal. James Dunham Bishop, Filbert street, Oakland; Faxon H. Bishop, San Anselmo Marin county, Cal.

In another place in the notebook is a memorandum, dated May 23, 1906, send to San Francisco insurance \$120.25. C. H. B.

#### SEPARATED FROM WIFE.

BERKELEY, Aug. 10—Charles H. Bishop, who committed suicide in Oakland this morning, had been separated for several months from his wife Evelyn Bishop, who resided at 2418 Durant street. Mrs. Bishop left for Ross Valley last week, and has not yet been informed of her husband's death. Bishop's sister-in-law, Mrs. K. T. Waite, is living at the Durant street house. She said today that Bishop had threatened a number of times to commit suicide. He is addicted to drink and was despondent on that account and because of his domestic troubles.

Bishop was a cousin of C. R. Bishop, the San Francisco attorney and capitalist. He leaves three sons besides his widow. Two of these sons are pupils in the Hitchcock school, the other son is in Honolulu. Bishop was fifty years old. He was about five feet six inches in height, and fairly well dressed.

BLISS DENIES HE  
IS TURNED DOWN

John A. Bliss who for a number of years has represented the fifth assembly district in the state legislature, was asked this morning if the rumor that certain leaders of the party had turned him down as a candidate for the legislature was well founded and replied.

It is not so. There is nothing in that story. If I do not run, it will be because I make up my mind for myself in that direction. While I have not quite likely that I shall not be a candidate. Why? Well I have got a decided as to what I shall do, I am inclined to think that I will make up my mind not to run.

Absolutely No Light Thrown on Mysterious Murder in Temescal Canyon.

LOS ANGELES, Aug. 10.—While no direct clue has been unearthed in the mysterious Temescal canon murder case, and the body of the murdered girl remains unidentified at the morgue in Santa Monica, circumstances have been discovered of possible importance.

Diligent search today of the under-brush surrounding the spot where the decomposed body of the young woman was found yesterday, resulted in the finding of a bent safety pin in the ashes of a campfire, the stalks of two rifle cartridges corresponding in size to the bullet hole through the head of the corpse, small pieces of a bloody skirt, apparently bullet-pierced, a hat-pin and a pebble that was undoubtedly carried from the ocean beach half a mile away. This latter find the officers working on the case respect as tending to prove that the murder was preceded by a beach stroll by the dead girl and her slayer.

Beyond the possibilities of these finds the detectives are at a loss. Absolutely no clue has been developed up to an early hour this morning, other than the manufacturer's name mark "Pingers" written on the lining of the shoes worn by the corpse. Through this lead, the sheriff's office hopes to trace down the store where the shoes were bought.

## COMMERCE CHAMBER'S NEW DEPARTMENT

The Chamber of Commerce of Oakland is to inaugurate a new department on Wednesday next, when the arrivals and departures of vessels will be collected and the information furnished the local newspapers.

James C. Gulkerson has been engaged to collect the data daily and the wharfingers of Oakland have agreed to fill out the blanks sent to them by the Chamber of Commerce. These blanks are ruled with spaces for the names or the vessels, captains, where from and cargo, together with a space for remarks in which may be placed all occurrences out of the ordinary encountered by the vessel in her trip to this port. The data will be entered in a book in the rooms of the Chamber of Commerce and a complete record kept of the shipping of Oakland.

Mr. Gulkerson is acquainted with the work, having had experience in the United States government transpat service in Manila. He is a resident of Oakland and lives at 1271 Sixth avenue, East Oakland. The work of collecting the shipping data will be begun on Wednesday next.

## KNOWLAND TO SPEAK TO FORUM

The Fruitvale Forum will resume its meetings tonight, after a vacation of about two months. Hon. J. R. Knowland is to give the address of the evening on "Some Interesting Epochs of California's History." A great treat is in store for all who attend, as Mr. Knowland is familiar with his subject. He is well known as the president of the California Land Marks League. Music and other numbers are also included in the exercises of the evening. The Forum meets at 8 P.M. in the armory of the Fruitvale Congregational Chapel on Fruitvale avenue. The meetings are open to all who wish to attend. The Forum numbers about eighty of the well-known residents of Fruitvale among its membership.

## BERKELEY MAN ENTERS A DENIAL

Pacific Theological Seminary, Berkeley, California, August 10, 1890. The Editor, OAKLAND TRIBUNE, Oakland, Cal.—Dear Sir. In your issue of Wednesday evening, August 8, there appeared an item in regard to Professor Laughlin's resignation in which statements are attributed to me, in an alleged interview, for which I repudiate all responsibility. Will you please give to this denial the same publicity that was given to the aforementioned article? Yours sincerely,

A Healing Gospel. The Rev. J. C. Warren, pastor of Sharon Baptist Church, Buford, Ga., says of Electric Bitters: "It's a Godsend to mankind. It cured me of lame back, stiff joints, and completely put me to rights. It was so weak it took me half an hour to walk a mile. Two bottles of electric Bitters have made me so strong I have just walked three miles in fifty minutes and feel like walking three more. It's made me new man, no! Greatest remedy for weakness are all such rheumatic and kidney complaints. Sold under guarantee at Osgood Bros. drug stores, Seventh and Broadway and Twelfth and Washington streets. Price 50c."

## SPECIAL DAYS AT THE CALIFORNIA STATE FAIR.

Every effort possible is being made by the committee in charge of the State Fair, to be held at Sacramento from August 25th to September 1st, to make the affair a success. A feature of the program arranged will be the setting aside of special days for all sections of the State. As this is the first fair since the disaster, a special effort will be made to show that California products are just as good now as they were last year, and even better.

Special days have been arranged as follows: August 25th, Sacramento valley and tributary counties and north coast counties; day, August 27th, Los Angeles and the counties of southern California; August 29th, San Jose and central coast counties; August 29th, Stockton, Fresno and San Joaquin valley; August 30th, State of California and Governor's day, August 31st, San Francisco, Oakland and bay counties.

J. A. Filcher, the secretary, who has charge of the most of the work, expects this year's to be one of the largest and most interesting displays ever made in the State.

## WALLACE IRWIN IS CRITICISED

California Poet Misjudges Harvard, Say Graduates of That College.

**BERKELEY.** Aug. 10.—Graduates of "old Harvard" who are in the faculty of the University of California, or who are pursuing post graduate work at the state institution are up in arms against the California poet and writer, Wallace Irwin. They protest strongly and almost violently against the article that Irwin had in the August 4th number of the Saturday Evening Post, in which he playfully tells of the shame of the colleges heading his series of writings with a "roast" on Harvard.

The Harvard men feel that they are slandered when their beloved college is satirized and called a muck rake college. They say that the criticisms of the California man are disrespectful, not to say sacrilegious.

One of the Harvard alumni who was but recently made a member of the university faculty is strong in his denunciations of the article that appeared in the weekly. In defending his alma mater he says:

### PITIES AUTHOR.

A perusal of the initial number of what promises to be a series of articles on "The Shame of the Colleges," appearing in the Saturday Evening Post, leaves the reader with mingled emotions; pity for the author who evidently imagines himself possessed of the gift of humor; wonder that the editors of such a well known publication could have been deluded into a similar belief; and sympathy for the regular subscribers of the paper who seem likely to have several installments of similarly thin stuff dished up to them. Americans, as a rule, have a well developed bump of humor, but really there is a limit at which tears of laughter turn to sobs of anguish.

Another possible solution of the mystery of such a perpetration is that a bitter nostrum, concealed in a sugar plum, is being administered to Harvard college. If that is the purpose of the article, it is not a ludicrous attempt at facetiousness, but an effort to bare to the public gaze a diseased condition of the Harvard student body, then the matter becomes more serious.

Those not conversant with Harvard conditions may well be impressed with the idea that all the men of that university are cast of the "quagmire stamp" (a character by the way, which is borrowed from "The College Widow" and not taken from the classic shades of Cambridge). For the benefit of those who have gained such an idea it may be said that the creatures in question are mere figments of the writer's imagination and not a Harvard type.

The Harvard man needs no apologist. We meet him wherever we go, at home and abroad, and on but one of Mr. Irwin's indictments, direct or implied, can we find him guilty—that of being a gentleman. He has his faults, but they are not those portrayed in this somewhat malicious article.

We are waiting with anticipation and trepidation for the next bomb Mr. Irwin hurls into the college world.

## ESCAPES DEATH UNDER HORSE

Little Girl Bicyclist Rides Under Hoofs of Fractious Steed.

**ALAMEDA.** Aug. 10.—Little Paula Anderson, the 12-year-old daughter of H. Anderson, narrowly escaped death last night under the hoofs of a fractious horse, on Park street near Santa Clara avenue.

The little girl was riding her bicycle along Park street, the street being crowded with persons at the band concert when the rig suddenly turned in from the avenue. The driver of the rig was unable to pull up the horse before it had struck the girl. She was thrown under the equine and would have been stamped on by the animal had not an unknown man dashed into the street and dragged the girl from the perilous position.

The girl was badly frightened and it was necessary to carry her to her home on Park street. The driver of the rig did not give his name and his identity is a mystery.

## BONES BROKEN IN ACCIDENT

Fred Matt seriously injured—Other Happenings in the Vicinity of Livermore.

**LIVERMORE.** Aug. 10.—Fred Matt, driver of the butcher wagon for Martin & Fennan, had both bones of his right leg badly broken at the ankle joint early Wednesday morning while driving the wagon up the hill near the John Meyn place.

He had taken his breakfast with him as was his custom and was eating it as he rode along, with the lines held loosely between his knees. The horse suddenly shied and ran off the narrow grade before he could gather up the reins, overturning the top-heavy wagon and throwing him out. His foot, breaking the ankle. The team, however, could not drag the wagon to run away, and Matt was gritty enough to unhitch them, hopping around on his other foot until the injured one finally became so painful that he could not hitch up the horses again and had to sit down and wait for someone to come along and take him to town for medical aid. The injured man will be laid up for some time to come.

**THROWN FROM HORSE.**

George Teeter suffered a bad scalp wound and concussion of the brain last Friday through being thrown from a horse he was trying to mount at his ranch on the Dublin road. The last thing he remembers is putting his foot in the stirrup to mount the horse. He was thrown to the ground and rendered unconscious for some time, but his recovery is now assured.

**THROWN FROM A CART.**

White Howard Frost, the ten-year-old son of Mr. and Mrs. George Frost, was driving with a horse and cart past one of his ranches. About half way down Tuesday afternoon, the horse became frightened and ran the rig against the four-wheeled truck used in hauling out the hay to load it into the car, overturning the cart and throwing the boy out. He struck on his head and shoulders on the railroad track, sustaining serious injuries consisting of a bad scalp wound and possible fracture of the skull, a broken shoulder, a sprained ankle and many bruises. The lad is doing well, but will be laid up for many weeks.

**BODY SHIPPED TO EUREKA.**

The remains of John Glob, the engineer of the traction train who fell from his engine early last Saturday morning and was run over by one of the cars, were shipped Monday for interment to Eureka, where he has an aged father. The deceased also leaves a wife and two children here, who accompanied the remains north.

**CLEARING UP WRECK.**

The work of clearing up the traction engine wreck on the Dublin road ten miles from here began Tuesday, and the overturned engine and three cars are expected to be out of the ravine in about a week's time. Had they gone ten feet further all would have been precipitated over a cliff to the creek bottom 100 feet below.

**VISITING RELATIVES.**

Mrs. William Boehmer of Alameda visited her mother, Mrs. J. Hupera, here this week.

Mrs. A. Phillips left Thursday for Medford, Ore., to take a vacation, on the advice of her physician, and will visit her mother, Mrs. James Thresher.

Mrs. John Head of Oakland and Miss Tessie Savage of Santa Rosa are guests of Dr. and Mrs. S. L. Savage.

Mrs. M. A. Hempstead of Oakland is visiting her daughter, Mrs. S. L. Savage.

Mrs. M. H. Beck of Berkeley is here visiting her mother, Mrs. C. E. Beck.

Miss Alice Mulcahy of Tufts is the guest of the Misses Gallaghers this week.

C. H. Christensen has sold a half interest in his saloon at Altamont to L. Lepori, late of San Francisco.

**ESCAPED FROM ASYLUM.**

An escaped inmate from the Stockton Insane Asylum was captured here Wednesday, being recognized by Charles Rabell, into whose saloon he went. Rabell had known the man for years, and immediately realizing that he had escaped from an asylum, he informed Town Marshal Smith, who telephoned to Stockton about the matter, and an attendant came on the 2 o'clock train and took the escaped lunatic back. He had left last Saturday morning and walked all the way here, becoming quite exhausted. The man was not violent, and no trouble was experienced in capturing him. The name was given as Morris Hasquel. He had formerly resided at Decoto, and was also here for a short time.

**GONE TO THE SPRINGS.**

Quite a number of Livermore people have left for Adams Springs this week.

## BERKELEY NOW HAS CHAPTER

Pie Del Monte Club Will Become Delta Gamma Sorority.

**BERKELEY.** Aug. 10.—The girls of the Pie Del Monte Club of the University have received with joy the news that they have been granted a chapter of the Delta Gamma Sorority, one of the most exclusive sororities of the East and the leading secret organization of the Leland Stanford University. The honor which the Piedmonts gained is a coveted one, as many of the organizations of the University have endeavored in vain to gain the chapter of the national secret society.

The members of the Stanford chapter of the Delta Gamma will visit Berkeley early this fall for the purpose of installing the new chapter. The date of the ceremonial will be awaited with interest by the fraternities and the sororities of the university.

Among the active members of the Pie Del Monte Club are: Misses Alice Johnson, Virginia Frank, Maude Hunter, Clara Gillian, Winifred Beckingsale, Martha Chevret, Katherine Douglass, Jessie Gooch, Julia Irene Held, Gertrude Graham and Katherine Heely.

**GOES TO CATALINA.**

**ALAMEDA.** Aug. 10.—Rev. George Morris has gone to Catalina Island, where he is to assist in the re-dedication of the church at that point. Rev. Morris was the first pastor of the church and since it has been enlarged and beautified he is going to the south to help in the second dedication of the building.

**CONSTRUCTION CAM.**

A Western Pacific Railroad construction camp was established this week near Greenville, six miles east of town, where grading is being done for the trackbed, a big cut being made. Next week a construction camp is to be stationed near Juddville, just east of the own limits, it is reported.

**PURCHASED THREE LOTS.**

Erskine E. Eeden, now of San Francisco, who recently sold his residence property on Oak street to the Western Pacific for a sum, has purchased three lots on L street from Mrs. S. J. Hart, next to the chapel at 10 a.m. upon the subject "At the Feet of Gamaliel." Students, alumni and friends of the seminary are invited.

**DELIVERED LECTURE ON RECENT TEMBLOR**

**BERKELEY.** Aug. 10.—Charles Dorleith, associate member of the American Society of Civil Engineers, and professor of structural engineering in the University of California, delivered an interesting lecture in Hearst hall last night, entitled "The Destructive Extent of the San Francisco Earthquake."

The lecture was profusely illustrated by numerous photographs taken by various observers. These pictures show the effects of the earthquake from the region of Humboldt county in the north along the coast southward to the neighborhood of Salinas and Monterey in the south. Mr. Dorleith's hearings were conducted in a room filled with architectural cracks from Fort Ross through Tomales bay and Bolinas; then through the property of the Spring Valley Water company along its reservoirs of San Andreas and Crystal Springs, continuing southward to the Golden Gate. Illustrations of the San Jose and Chittenden Station, where the Pajaro bridge was considerably damaged because it stands right on the fault line.

In closing, Professor Dorleith recalled the great disaster at Constitution in the trough of Justinian, the famous earthquake and tidal wave at Lisbon, and the less known seismic disturbance in the early part of the nineteenth century in the Mississippi valley. In all cases of great seismic disturbances, the collection of the earth's crust for centuries thereafter. It is believed that prediction is impossible, that the coast of California will be free from earthquakes for a long period of time.

**PLANS CARNIVAL.**

**BERKELEY.** Aug. 10.—W. L. Seawright, the new director of physical culture at the local Y. M. C. A. has planned an athletic carnival for the members of the Y. M. C. A. The affair will be given tonight. Besides the regular drill, calisthenics and the work on the parallel bars, the feature of the evening will be an exhibition of Jiu Jitsu by A. Thornberry, who was formerly connected with the United States consular service at Chefoo. There will also be a relay race and a basket ball game.

**DELEGATES ELECTED.**

A meeting of Democrats was held at the town hall Monday evening, in response to a call issued by County Central Committee man, M. G. Callahan and after electing a temporary chairman and secretary, J. J. Murphy and A. L. Henry, delegates were selected as follows to represent Murray township: For county convention, Oakland, Sept. 15—Livermore precinct No. 1, Max Bernin; No. 2, D. J. Murphy, and John Swain; Murray precinct No. 1, William Manning; No. 2, A. Hartman; Tesla, W. H. Ryan; Altamont, Thomas Egan. Delegates to the state convention, which convenes in Sacramento September 11, were elected as follows: Outside precincts, Daniel Inman; inside precincts, M. G. Callahan.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private life, even when those questions are asked by her family physician, and many

will be.

**BODY SHIPPED TO EUREKA.**

The remains of John Glob, the engineer of the traction train who fell from his engine early last Saturday morning and was run over by one of the cars, were shipped Monday for interment to Eureka, where he has an aged father.

The deceased also leaves a wife and two children here, who accompanied the remains north.

**CLEARING UP WRECK.**

The work of clearing up the traction engine wreck on the Dublin road ten miles from here began Tuesday, and the overturned engine and three cars are expected to be out of the ravine in about a week's time. Had they gone ten feet further all would have been precipitated over a cliff to the creek bottom 100 feet below.

PROFESSOR C. S. NASH, Who Will Speak at Opening of Seminary.

**SCHOOL FOR MINISTERS IN BERKELEY** to Begin Fall Term Next Week

**BERKELEY.** Aug. 10.—The Pacific Theological Seminary will open for the year Tuesday, August 14. The address will be given by Professor C. S. Nash, D. D., at the chapel at 10 a.m. upon the subject "At the Feet of Gamaliel." Students, alumni and friends of the seminary are invited.

**COLLEGE GETS VALUABLE PRESENT.**

**BERKELEY.** Aug. 10.—A collection of insects valued at many thousands of dollars have been given to the University by Professor W. T. Clarke formerly of the University of agriculture, but now of the University of Alabama. Professor Clarke has spent many years gathering the unique collection of insects from all parts of the United States. He prizes them highly on account of the many rare specimens that are numbered in the collection.

The collection was presented directly to the department of entomology. The department is also in receipt of another box of insects which has been shipped to the university by an Oriental, a former student of the university. Besides the common insects that are at present found in China and the adjacent Asiatic countries, the collection comprises a number of the scarcer specimens that are numbered in the collection.

## The Increased Cost of Building.

A correspondent says the labor unions are responsible for the increased cost of building.

Higher wages and shorter hours of labor have their share, beyond question, in increasing the cost of building, but the greed of dealers in materials for larger profits is also largely responsible. After allowing a wide margin for the increased cost of labor, a still larger allowance must be made for the enhanced cost of materials.

To state the facts frankly, it seems as if everybody is charging all the traffic will bear—labor exacts the highest wages it can get and does the least work possible, while the dealers in lumber, brick, and other construction materials charge the highest prices they can get, taking advantage of scarcity and the extraordinary demand to make their own terms.

It is a case of every man getting all he can, and excusing his greed, if possible, by passing the buck to his neighbor. The dealers lay the blame on the labor unions, and the labor unions say the dealers are the ones that are putting on the cinch. In truth, all of them are putting on the cinch—the lumber men worst of all.

But what are we going to do about it? The workingmen say the cost of living has gone up enormously of late. So it has. Rents, food, and clothing are all much higher than they were a short time ago. The man who earned four dollars a day one year ago must earn five now if he would live in equal comfort and obtain the same amusements that he did then. As the necessities of life increase in cost, it can hardly be expected that the wages of labor will remain stationary. Besides, the inexorable law of supply and demand regulates prices where some artificial stimulus is not applied. Here at this time there is an extraordinary coincident demand for labor and building materials, and labor and dealers in materials are making the most of the situation.

That is the whole story in a nutshell. Had Congress remitted the tariff duties on building materials to be used in San Francisco, the story would be a different one from what it is. There would not be so much cinching and complaining. There would be more speed in rebuilding San Francisco, and less difficulty in obtaining the necessary materials. But Congress did not see fit to remit the duty on foreign building material, and the natural consequence has ensued. The condition is one that any person of sense could have foreseen, and is precisely what every discerning architect and contractor discounted in advance.

## Good for Chief Wilson.

Chief of Police Wilson has given strict orders to arrest all persons who speed autos beyond the legal limit. The public will cry amen. It may be asked why was not the law enforced more strictly before, but the people will not be captious if the Chief will only stand to his guns in future and compel autoists to obey the law and manifest a decent regard for the rights and safety of others. Things have come to a dangerous pass of late because of the utter disregard shown by many autoists, mainly of the idling class, for the safety of pedestrians and drivers of light horse vehicles.

Says the Chief: "Some of these machines are run through the busiest streets of the city at a speed of thirty and forty miles per hour. Any individual who happens to get caught in front of one of these cars has no chance for escape. Unfortunately our city ordinance is invalid, but I think we can bring the violators to book on the State law and we will attempt to do so. These shocking accidents which we have had lately must be stopped if there is any law that will do it."

This is a conservative statement of the facts. The Chief might have made a broader and more forcible statement and still kept well within the truth. He has said enough, however, to prove that he is a man of observation, and is alive to the dangers which at present attend traffic in the streets of Oakland.

But while the Chief is directing his subordinates to compel autoists to obey the law, he should also require the drivers of all vehicles to manifest greater respect for the rights of pedestrians. Nobody seems to care a rap for the laws and ordinances defining the rights of pedestrians. Bicyclists, cab and dray drivers, autoists and street carmen all seem to regard the person on foot as an outlaw with no rights for anybody to respect. Yet his legal rights are superior to those of any vehicle. It is about time they were asserted and protected.

The irrepressible Charley Shortridge is preparing to start another newspaper in San Jose called the "Morning Times." He once owned a paper in San Jose called the Times, which he subsequently consolidated with the Mercury. After successfully conducting the

Mercury for many years, he sold it out, but afterward bought the Evening Herald, which he finally sold to the Hayes Brothers, who also own the Mercury. Senator Shortridge announces in a prospectus that he has already purchased a press, linotypes, and other mechanical appliances, and has contracted for the special telegraphic service of the Hearst newspaper. He promises to make the fur fly when he gets started, and his past record justifies the conclusion that he will make good.

The unveiling of the Confederate monument, at Abbeville, South Carolina, which will take place in the latter part of this month, directs attention to the fact that the first secession mass meeting in 1860 was held in Abbeville, and the last Confederate council of war was held in the Burt mansion of that city in 1865. Abbeville (pop. 10,000) was the home of John C. Calhoun, whose ultra-secessionist doctrine led to the secession movement. By order of General Lee, the First Artillery Band, United States Army, will march the music for the unveiling. The "bloody chasm" is indeed closed. Its unveiling will mark the final obsequies of the "Lost Cause" in the place of its birth.

The earliest mention of a strike fund occurred in the strike of the Parisian stocking weavers in 1724, when a crown a day was subscribed for every striker, and all blacklegs were mercilessly boycotted. But the biggest strike under the "ancien régime" was that of the silk factory hands at Lyons, in 1744, when 12,000 men went on a strike and so alarmed the mayor that he conceded everything they asked, and wrote to his brother that he had "la tête cassé pour cette ville." The "vile canaille," however, had had their moment, and it was no longer theirs. Two months later the king sent down 20,000 soldiers "pour remettre l'ordre dans la bonneville de Lyon;" and we hear no more of strikes till the supreme strike of 1798.—London Chronicle.

## AN ALL-AROUND KICK.

Editor TRIBUNE:—I would like to ask a question through your columns:

What has become of the report of Charles Mulford Robertson on the Parks and the Grand Future Open to Oakland? Has the report fallen still born? Is it being side-tracked, or doped, to give a chance to "the business men of Oakland" to buy up and own the parks for another "mess of pottage," as they have "bought up" and "own" the water and the waterfront?

This opens the way for a small civic sermon:

Are the majority of the people of Oakland forever to be Esaus, to Ephraims, joined to their idols like a majority of the little Council of Oakland were the other night, when they sold their honor and the good name of the city for the mess of pottage the saloon vote gives them?

These are personal questions—yes.

A man must take his stand for or against public parks and waterfronts and water. Those who believe in the public ownership of such public utilities as parks, and water and waterfronts, for public use and not for private enrichment, must vote and fight for what they prefer, or be numbered among the Esaus and Ephraims.

Oaklanders may slumber upon their rights until the enemy has "bound them hand and foot," but the real men of the United States are waking up to the reveille sounded by the President, and the cry to arms against public robbers is ringing through the Union.

These "leading citizens" who are grabbing for every necessity upon which the life and liberty of the people depends, forget one thing, or they have never learned it: The people of the United States never permanently abdicate; and the people, in the ultimate settlement of questions involving their lives and liberties are king, czar, emperor, standing army, and the will of God. They proved themselves so when they went up against African slavery above the clouds at Chattanooga, and in the hellfire of the opposing batteries on the Mississippi river, and the impregnable heights at Vicksburg; and African slavery went down.

And so it will be, more and more, from this time on, throughout this liberty-loving Republic—except in sporadic ulcer spots where the people prefer to eat the bread of slavery, doled out to them by the merciless, short-sighted grabbers of public utilities.

Is Oakland forever to be one of the ulcers? I pause for a reply.

R. O. WHITHEAD.

The scandals growing out of relief supplies in San Francisco has developed some peculiar things. The disappearance of nine two-horse loads of whiskey naturally leads to the inquiry as to why so much booze constituted a part of the relief supplies. The part that disappeared was but a portion of the \$40,000 worth of whiskey supplied by the government. At the present day it is generally conceded that whiskey is hardly an essential medical supply. It certainly looks as though there had been some sort of a graft before that whiskey ever reached San Francisco. It was a peculiar idea to send 20,000 gallons of whiskey to a city where the sale of even a single glass of liquor was strictly prohibited by military and civil law.—Calaveras Prospect.

## NEWS OF TOWN AND COUNTRY

Society Folk Enjoy Vacations  
Home Affairs of the Week.

The marriage yesterday of Miss Charlotte Thomas, daughter of Mr. and Mrs. J. H. Thomas, and Edward Faukner was an event notable in local society, where the bride has been a favorite. The Thomas home in Fruitvale was attractively decorated for the affair. A wedding arch was formed of graceful fern and enchanting carnations, and in this floral rock the marriage service was read by Dr. J. K. McLean. The wedding supper was served in the dining room, decorated with green asparagus fern and white carnations.

The guests included only members of the immediate family.

The bride wore a gown of delicate white batiste, hem embroidered and finished with a transparent yoke of lace. She wore a spray of orange blossoms in her hair and carried a shower of bridal roses.

The two attendants, nieces of the bride, were Miss Priscilla Rugg, as flower girl, and Miss Lily Thomas as ring bearer.

Mr. and Mrs. Faukner have gone on an extended honeymoon trip, planning to be away for about two months. The groom is a successful young architect with the firm of D. Franklin Oliver.

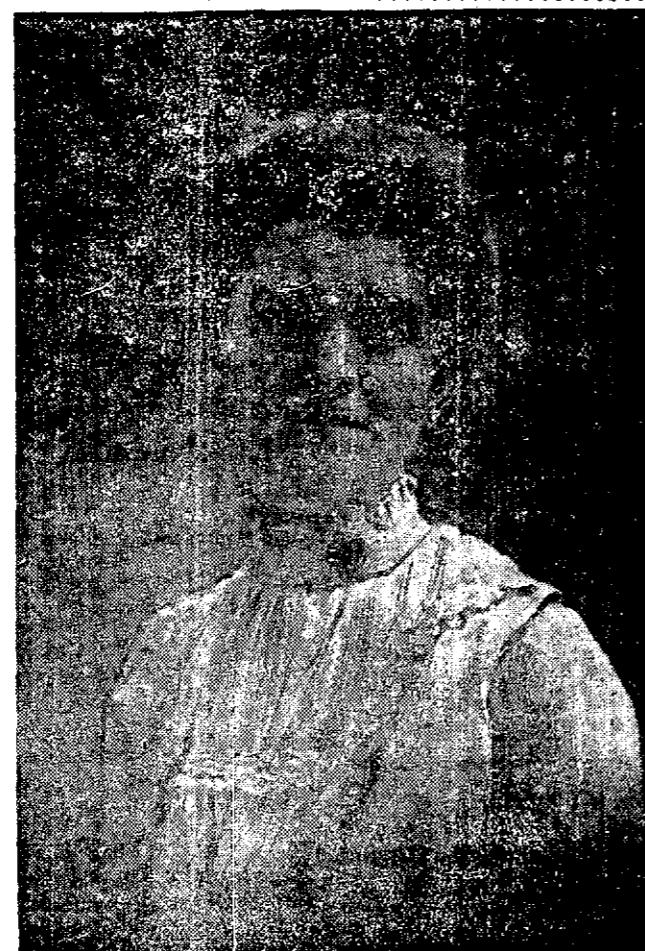

**AN ENGAGEMENT.**

The engagement is announced of Miss Dorothy Anita Rosenheim of Berkeley and Frank Southwell. Miss Rosenheim is a sister of Philip Rosenheim and has many friends here and in the college town.

The wedding will take place Sunday, September 16th, at the bride's home.

Rev. E. E. Baker will officiate and the bride will have but one attendant, Miss Angie Ulrich of Chicago.

Mr. Southwell is connected with the Southern Pacific Company and after a

honeymoon he and his bride will make their home in this city.

**ENTERTAINS FRIENDS.**

Miss Mary A. Gulchard entertained several friends Wednesday afternoon at her home. The chief feature of the affair was an outdoor peanut hunt for which Miss Irene Bibb of Mill Valley won the prize. Those present were Miss R. Cundie of San Mateo, Misses Snaer, Misses Hahn, Misses Dineen, V. Lynch, V. McCabe, G. Davie, E. Duggin, Miss McDonald and Mrs. T. Miller.

**STORK'S VISIT.**

Mr. and Mrs. Robert F. Gulchard Jr., are receiving congratulations on the arrival of a little daughter in their home.

**RECEIVE FRIENDS.**

Miss Marion Ransom and Miss Edith Bridges have decided to open a preparatory and grammar school on this side of the bay and the clever teachers entertained their friends recently at a reception held in their cozy quarters. The rooms were decorated with yellow blossoms and among those who called were:

Mrs. James H. Cooper, Mrs. Henry Crocker, Mrs. Clinton Day, Mrs. William Dunning, Mrs. E. H. Davenport, Mrs. Horace Davis, Mrs. William de Fremery, Mrs. George S. Weston, Mrs. Irving Loughborough, Mrs. Charles M. Gayley, Mrs. Whitney Palache, Mrs. James Moffit, Mrs. Archibald Borland, Mrs. Warren Cline, Mrs. John Garber, Mrs. George H. Howison, Mrs. Edson Adams, Mrs. Henry Adams, Mrs. H. P. Livermore, Mrs. Oscar F. Long, Mrs. William A. Maggs, Mrs. John L. Howard, the Misses Hilgard, Mrs. William Pierce Johnson, Mrs. M. W. Kates, Miss Katherine Spears, Mrs. Frederick Talant, Mrs. B. F. Weston, Mrs. R. A. Wellman, Mrs. Benjamin Ide Wheeler, Mrs. C. T. Bradley, Mrs. Carl Fleish, Mrs. P. E. Bowles, Mrs. Spencer Buckbee, Mrs. Frank Brown, Miss Ethel Moore, Mrs. Louise Raiston and Mrs. Thomas Richardson.

**BIRTHDAY PARTY.**

Miss Elsie Moise was hostess recently at a birthday party given at the home of Miss Edith Orth, on Eleventh street. Among those who enjoyed the evening were Miss Edith Orth, Miss Grace Vesper, Miss Dorothy Barton, Miss Hatch, Miss Berlita Sleander, Miss Florence Bruce and Messers. William Shall and Easton Kent.

**HONORED GUEST.**

Miss Hiram T. Bradley was the honored guest at several informal affairs during her recent visit. Mrs. W. S. Palmer entertained at a very pleasant luncheon in Mrs. Bradley's honor, and among other affairs for this particular guest was the luncheon given by her mother, Mrs. Bromwell, at the Graystone in San Francisco. Only a few close friends were included in the guest list of both affairs.

Mrs. Bradley has returned to Long Beach, but is planning to spend the winter in Oakland.

**AUGUST WEDDING.**

The wedding of Albert Hamilton Armstead and Mrs. Kathryn Hopkins will take place August 16. The bride has numerous friends here, while Mr. Armstead is a prominent business man of Wheatland.

**VACATION TRIP.**

Mrs. L. L. M. Salisbury, with her two nieces, Miss Louise Reed and Miss Marie Bunce, and Miss Alice Adshead, Miss Ellen Adshead, Miss Ethel Sanford, have all returned after two weeks at Camp Meeker.

**AT EL CARMELO.**

El Carmelo, Pacific Grove, is a busy place this season. A few nights ago the would be guests on the evening train had to be notified to get off at Del Monte, as even the rooms in the neighboring cottages were all occupied.

The University of California is represented by Professor Stringham and family, Professor Shaw and Professor

## NEAR DEATH IN MOUNTAINS

Three Young Girls Have Lively Experience and Are Rescued With Difficulty.

LOS ANGELES, Aug. 10.—Three girls, the eldest of them fifteen years, Grace and Fay Gibson and Mystic Shaw, are seriously injured as the result of being lost all night in the San Bernardino mountains. The girls left the tent in Devil canon where they were camped with their parents, to search for yucca seeds.

Too engrossed to notice the flight of time, they found themselves encompassed by night and on the brink of a high cliff. In attempting to find their way back they lost their footing and plunged down the declivity.

One of the girls was eventually rescued by the lowering of a rope, another barely escaped drowning in a creek at the foot of the cliff and all three were badly hurt.

home. Her son and daughter are attending the state university.

Mr. and Mrs. Charles Manners will return to Berkeley after three weeks at Mount Shasta.

Miss Edie Maxwell and Miss Beatrice Fredericks have been spending a few days in Marin county.

**NEW HOMES.**

Mr. and Mrs. Livingston Jenkins are making their home in Berkeley and will shortly begin the erection of a handsome new residence.

Mr. and Mrs. Willard Williamson are building a new home in Piedmont.

**OAKLAND CLUB.**

The members of the Oakland club are preparing for a series of interesting affairs this winter to be given at their new quarters in the Knights of Pythias' Building. During the month of September meetings will be held at the home of Mrs. G. J. G. Marsily, on Harrison street, but the club rooms will probably be ready for occupancy October 1.

A board meeting was held Wednesday afternoon of this week at the Marsily home, with Mrs. W. S. Peters presiding. In the absence of the club president, Mrs. Cora El Jones, who is spending the summer in San Jose. The first club gathering will take place on the first Wednesday in September.

**HOME WEDDING.**

A pretty home wedding took place in Alameda on the evening of August 1, when Miss Viola M. Upton, of Alameda, became the bride of Walter R. Pritchard, of Oakland. The ceremony was performed by the Rev. C. M. Gardner, of Modesto. After receiving congratulations the couple departed amidst a shower of rice for Santa Cruz. They will reside in Alameda.

**AFTERNOON WHIST.**

The Ladies' Auxiliary to the Order of Railway Conductors will have its usual afternoon at whist next Thursday, August 16. Playing will commence at 2:30 sharp.

## "Old Hickory Furniture" for porch, lawn and bungalow

Delightfully rustic, quaint, durable, attractive, comfortable. The finishing touch to the garden, veranda or library.

Andrew Jackson, Webster, Clay and Calhoun, were partial to the hickory chair with its broad expanse of bottom and its ideal comfort.

And even today no mansion or cottage, no hotel, resort or boarding house is complete without its set of "Old Hickory" furniture.

Some day the material will be exhausted. Some day it will be too late. Then imitations will creep in and genuine "Old Hickory" will be a treasure no money can buy.

Nothing enters into the construction of this furniture but hickory—the strongest of our native woods. The bottoms and backs are plaited by hand, of the inner growth hickory bark, which can only be stripped from the trees at certain seasons of the year.

This bark is of far greater strength than any other seating material.

The frame work is made of young hickory saplings, with the bark on. These are chemically treated so that all germ and insect life is destroyed, making them as everlasting as iron or steel.

There is absolutely nothing to wear out about them. Nature's handiwork has been delightfully preserved and "Nature unadorned is the most adorned of all."

If you can not afford to buy an entire set, then buy one or two chairs now, a couple in a month or so, etc.

Of course your credit is good. If you have other uses for your ready cash then pay two or three dollars down and the rest as convenient.

But don't put it off.

**TO CONSTRUCT  
NEW BUILDING**

Coast Carriage Company Plans for Handsome Salesrooms in This City.

Early next week the Coast Carriage Company is to commence the erection of a handsome two-story structure at the corner of Twelfth and Jackson streets, in this city. The building will cover a lot with a 100 foot frontage on Twelfth street, and 120 feet on Jackson. Both front and side of the building will be a continuous line of heavy plate glass windows. The interior of the structure will be elegantly finished, and will be one of the handsomest salesrooms on the coast.

F. L. Darow, the vice-president, and manager of the new carriage company, states that the company prefers Oakland to San Francisco, was

cause there are better facilities here for reducing expenses and reaching the trade than across the bay.

The Coast Carriage Company will be manufacturers' agents for everything in the way of pleasure vehicles, delivery wagons, trucks and drays, and, in fact, all vehicles on wheels. It will also carry a full line of rubber tires for automobiles and other vehicles.

Mr. Darow, the vice-president, was for three years manager and buyer of the vehicle department of the firm of Baker & Hamilton of San Francisco, and previous to that was for many years in a similar business in Minneapolis, Minnesota.

He has purchased a residence at 6869 Telegraph avenue, and will make Oakland his permanent home.

The Coast Carriage Company has secured a ten years lease on the property at Twelfth and Jackson streets.

**RETURN TO SAN FRANCISCO.**

BERKELEY, Aug. 10.—The laboratory of Chemist Gibbs, head of the department of San Francisco, has moved back to San Francisco, where they will now be quartered at Scott and O'Farrell streets. The stay at the agricultural building of the university was the result of an invitation issued by the department soon after the chemist's office in San Francisco was destroyed.

## SALT WATER'S ADVANTAGES

The Benefits of a Fire Protection System Are Explained by B. H. Pendleton.

Councilman B. H. Pendleton voices the advantages of a salt water fire protection system in the following letter which he has written THE TRIBUNE:

Editor Tribune: An ordinance was introduced at the last meeting of the City Council to provide for the installation of a salt water plant upon plans drawn by the City Engineer at an estimated cost of \$56,000.

It is proposed to install on the city's property, foot of Webster street, two independent pumps capable of delivering water at a pressure of 125 pounds per square inch to a distributing system to be installed as follows: From the city wharf at the foot of Webster street, up Webster to Twenty-first along Webster, down San Pablo to Clay and Clay to First, along First to Webster, with two intersecting mains on Seventh and Twelfth from Webster to Clay and one on Broadway from First to Twenty-first. This system gridiron the territory that is included in the business with no dead ends and is capable of expansion.

**FIRE PROTECTION.**

The average hydrant pressure within the fire limits as determined by the chief of the fire department was about 42 pounds, running from a minimum of 33 pounds at Fourteenth and Clay streets to a maximum of 42 pounds at Twelfth and Clay streets. These are still pressures which would be diminished under drought, whereas under the proposed system there would be a constant pressure of at least 125 pounds per square inch at the hydrants which would furnish a pressure of 100 pounds per square inch at the hydrants and these would be equal to ten streams thrown from a fire engine.

**STREET SPRINKLING.**

At the present time the city is sprinkling 1½ miles of streets at an expense of

Per water ..... \$83,000  
Per labor ..... 23,000  
\$106,000

There are 156 miles of improved streets now being covered, of which 149 miles are on the street railway system. Estimated at all of their lines intersect the proposed salt water system it might be possible for the Board of Works to make an arrangement with the street railway company, such as prevails at present, to have the street department supply the salt water to the various hydrants.

Under the present system the streets are thinly sprinkled during the heat of the day and evaporation is very rapid, resulting in very little permanent benefit. It has been demonstrated in our own experience that after a few applications of salt water the bedrock of the surface becomes coated with a thin deposit of salt which has the function of extracting the moisture from the air, thereby maintaining a damp condition of the surface for some time. Furthermore under the proposed plan the salt water would be sprinkled by the car company at night.

It is believed that the car company

will be willing to do this at a small expense.

## THE FARMER'S WIFE

is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blisters, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

To aid in healing old sores or blisters, Dr. Pierce's Medical Discovery. That this is absolutely true will be readily proved to your satisfaction if you will but make a personal request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his book or extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

### CURES WOMAN'S WEAKNESSES.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fye one of the Editorial staff of THE ELECTRIC MEDICAL REVIEW says of Unicorn root (*Heliotrope* Dicroid) which is one of the chief ingredients of the "Favorite Prescription": "A remedy which invariably acts as a tonic for the entire reproductive system." He continues "In Heliotrope we have a medicament which more fully answers the above purposes than any other drug with which I am familiar. It is a specific for diseases peculiar to women. It is seldom that I see which does not present some indication for this remedial agent." Dr. Fye further says: "The following are among the leading indications for the use of this medicine: Aching in the back with leucorrhea; atonic (weak) conditions of the reproductive organs of women; mental depression and irascibility; associated with chronic diseases of the reproductive organs of women; removal of heat in the region of the kidneys; menorrhagia (flooding), due to a weak condition of the reproductive system; a condition of the womb (uterus); periods, arising from or accompanying an abnormal condition of the digestive organs and animal (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present no invalid woman can go better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Heliotrope and the medical properties of which it most faithfully represents.

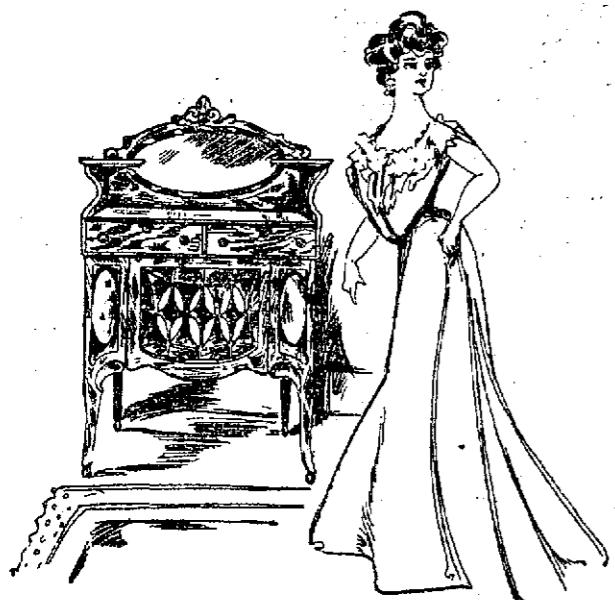

Of Golden Seal root another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the heart, lungs, kidneys, liver, and general enlargement. It is useful."

Dr. Pierce's Favorite Prescriber faithfully represents the above named ingredients and cures the diseases for which they are recommended.

Dr. Pierce's Pleasant Pellets are the original Little Liver Pills, first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. Magnificently combined in Dr. Pierce's "Easy to take as candy."

## \$31.50---Not a Special But our regular price

The buffet illustrated above can be had in oak, golden or "weathered" finish; quite plain in design, yet it has that "cut" to it that is attractive—no matter how long you have it, you'll never grow tired of it. Contains two drawers, a large cabinet with a uniquely "leaded" glass door—fitted with an oval French bevel plate mirror 12 by 32 inches.

This is just one of the many examples of how "Brewer's" keeps the prices down, and protects the people from paying high prices. As the article is guaranteed, the price, \$31.50, is proof positive that you are fully protected in trading here.

## WRECK IS THE END

### Wild Chase of Auto by Mounted Police Closes With Crash.

NEW YORK, Aug. 10.—While pursued by James F. Smith, a mounted policeman, a large touring automobile was wrecked at the corner of Jerome and Burnside avenues, the Bronx, early today. Smith, Mrs. Howard and Miss Evans, two occupants of the automobile, are in Fordham Hospital. The two were suffering with fractured skulls. The injured are:

Miss Margaret Evans, suffering from shock.

Stewart Elliott, owner and driver of the automobile, 251 West Eighty-first street, contusions.

Mrs. Howard of Richmond, Va., fractured skull.

The automobile was bound south on Jerome avenue, going at a high rate of speed. Smith hailed the driver and when Elliott did not stop started in pursuit at a gallop. He came up with the automobile on Burnside avenue, where the machine swerved to the right, striking the policeman's mount. The horse went over and at the same time the automobile struck the curb and turned turtle, spilling out the occupants. Elliott was the least injured of the occupants of the automobile and was arrested.

### UNCONSCIOUS.

Just before the machine overturned, to protect Miss Evans, Mrs. Howard, who occupied the tonneau, had leaned forward to clutch the seat in front. She was thrown from the side of the car. She struck the curb, flagging, where she lay unconscious.

Smith, Mrs. Howard and Miss Evans were hurried to the hospital, where it is said that the recovery of the two former is doubtful. Mrs. Evans suffered more from shock, though her injuries may be more severe than at first reported.

The steamer *Topo* has on board a cargo of gravel, which it is discharging at the Webster street wharf.

The scow Frank Lawrence is discharging 2200 bundles of shingles at the foot of Clay street for the Sunset Lumber Company.

The scow Robert and Jeannie has on board sixty tons of hay for Sheldon & Smith. The scow is discharging at the foot of Grove street.

### TO HOLD IRRIGATION CONGRESS AT IDAHO

The fourteenth national irrigation congress is to be held at Boise, Idaho, September 3 to 8, inclusive. Interests of vital importance to California will be discussed at this congress, and to assure the ultimate acceptance of projects in California which have been investigated it is necessary that there should be a strong delegation from this state.

All who are interested in conserving the great natural resources of the country and increasing the products of the land are invited to attend. Special railroad rates have been made to apply from all parts of the United States to this congress.

Streepicon views of work under construction and completed will be used in illustrating addresses and reports, providing attractive and educational to all who attend.

### LAND INVESTIGATORS TO MEET IN KANSAS

DENVER, Aug. 10.—Senator C. D. Clark of Wyoming, chairman of the senate committee which is to investigate land matters in Indian Territory, has called the committee to meet in Kansas City on November 12th. The committee decided to go from there to Vinita, I. T., on November 13th, and there sit for several days. McAlester will be the next place visited. It is expected to have the investigation completed by December 1, according to chairman Clark.

The members of the committee will then proceed to Washington and formulate their report and recommendations to congress for such legislation as will be necessary for Indian Territory.

### TALK OVER STREET MATTERS.

ALAMEDA, Aug. 10.—There was a short meeting of the West End Improvement Club last night. Many matters of public interest were discussed. There was considerable talk of the condition of the Webster street roadway, but no action was taken by the club regarding the matter.

### BEMENT WILL FILED.

The will of the late George Bement was filed yesterday for probate by his widow, Mrs. Sarah Jane Bement. The instrument decrees \$5000 a month in Franklin to the widow and the remainder of the estate is divided among five children.

### BUILDING REPAIRS.

BERKELEY, Aug. 10.—The work of repairing the damage done by the earthquake to Stiles Hall has been nearly completed and the building will be in order for the opening of the fall term of the university. The upper story of the building will be used by the school department of Berkeley for classrooms.

### STEAMER GROUNDED.

PONTA DELGADA, Azores Islands, Aug. 10.—The Zotti line steamer Brooklyn, from Marseilles, August 4, for New York, with 330 immigrants on board, grounded while entering this port today. Efforts are being made to float the steamer.

## PRISONERS ARE AIDED

### Many Jail Deliveries Attributed to Work of New Order.

ST. PETERSBURG, Aug. 10.—The central prison bureau has sent out a circular warning the wardens of penitentiaries to be on their guard against a new revolutionary organization formed to release political prisoners with the aid of sympathetic guards. Many jail deliveries are already attributed to the work of this organization.

Governor Zinovieff, of St. Petersburg, has instructed the subordinate officials in the country to explain to the peasants that the emperor dissolved parliament only because the ministers wasted time making inordinate demands, like their insistence on the granting of general amnesty which would turn loose robbers and murderers, and their urging the abolition of the death penalty even for a destroyer of the sacred person of the emperor. They had not even presented a resolution of the agrarian question, the net result of their work being an appropriation of \$7,500,000 for famine relief, where the government asked for \$25,000,000.

### LEADER ESCAPED.

The attempts on the lives of Vice-Admiral Doubousov on May 6, and of General Nepliukoff, commander of the Sebastopol forces, on May 27, have been traced to the "Flying Fighting Organization" of the social revolutionists, of which Savinkoff, a member of the central committee of the social revolutionists, and Lieutenant Kholoshevnikoff, formerly of the Black Sea fleet, were leaders. Savinkoff was arrested on suspicion of complicity in the attempt on General Nepliukoff's life, but he escaped two days later.

### ASSAILANT IDENTIFIED.

Boubassoff's assailant, who was killed by the explosion of his own bomb, has been positively identified. A girl student, Mila Michtchenko, who was involved in the conspiracy, had three of her fingers blown off, and was otherwise terribly mutilated while loading a bomb. She is a daughter of General Michtchenko, of St. Petersburg, a member of the military council.

About 400 of the Cronstadt mutineers will be tried by court-martial.

### BODY OF ADMIRAL IS ON WAY HOME

YOKOHAMA, Aug. 10.—Impressive services were held on board the flagship Ohio today over the body of the late Admiral Charles J. Train. The officers of the cruisers Chattanooga and Raleigh and the gunboat Elcano represented the navy. Ambassador Wright, Consul Miller of Yokohama, Consul Jones of Dalny and Consul Hayward of Scott represented the diplomatic and consular bodies. The ceremony was directed by Executive Officer Cowles of the Ohio. The Japanese government sent Lieutenant Commander Count Sano, Aide to Admiral Togo of the Japanese navy.

After the services the body was taken aboard the steamer Empress of China, which was followed by a procession of launches and boats, proceeding to the sound of minute guns. The remains of Admiral Train are accompanied by Lieutenant Russell Train and Flag Lieutenant Pollock. The flagship Ohio was covered with flowers including a magnificent wreath from Admiral Togo. The body goes direct to Washington.

### LAND INVESTIGATORS TO MEET IN KANSAS

NEW YORK, Aug. 10.—The Montgomery-White Hardware Company is a new Oakland concern. The firm has engaged the two stores at 401 and 403 Twelfth street and will begin business in the former stores September 1.

Bids are being asked by Architect A. W. Smith for a new building to be erected at Twelfth and Madison streets. The building will be of two stories and will, when completed, be occupied by the Carey & Hale carriage repository.

### KEY ROUTE'S NEW BOAT.

The Contra Costa, the new ferry boat of the Key Route line was taken from Dickie's yard at Alameda to the Union Iron Works yesterday to have her engines installed. As the machinery has been ready for some time, it is expected that the boat, which is to be a counterpart of the San Francisco, will be ready for service within a few weeks.

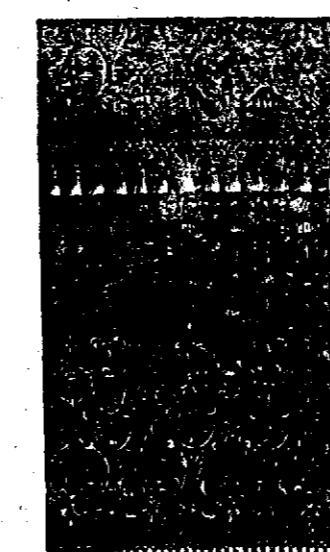

### BUILDING REPAIRS.

BERKELEY, Aug. 10.—The work of repairing the damage done by the earthquake to Stiles Hall has been nearly completed and the building will be in order for the opening of the fall term of the university. The upper story of the building will be used by the school department of Berkeley for classrooms.
